

PC08

MINI EXCAVATOR

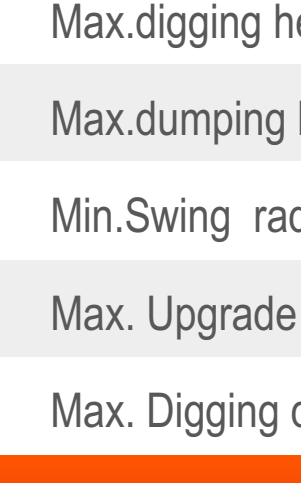

Quick and easy replacement of accessories
Multi-functions

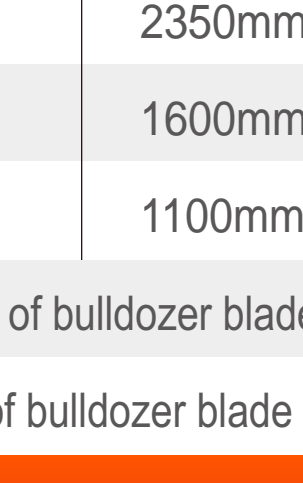

Long Life

Strong Power

360°Rotate

Low Consumption

PARAMETER

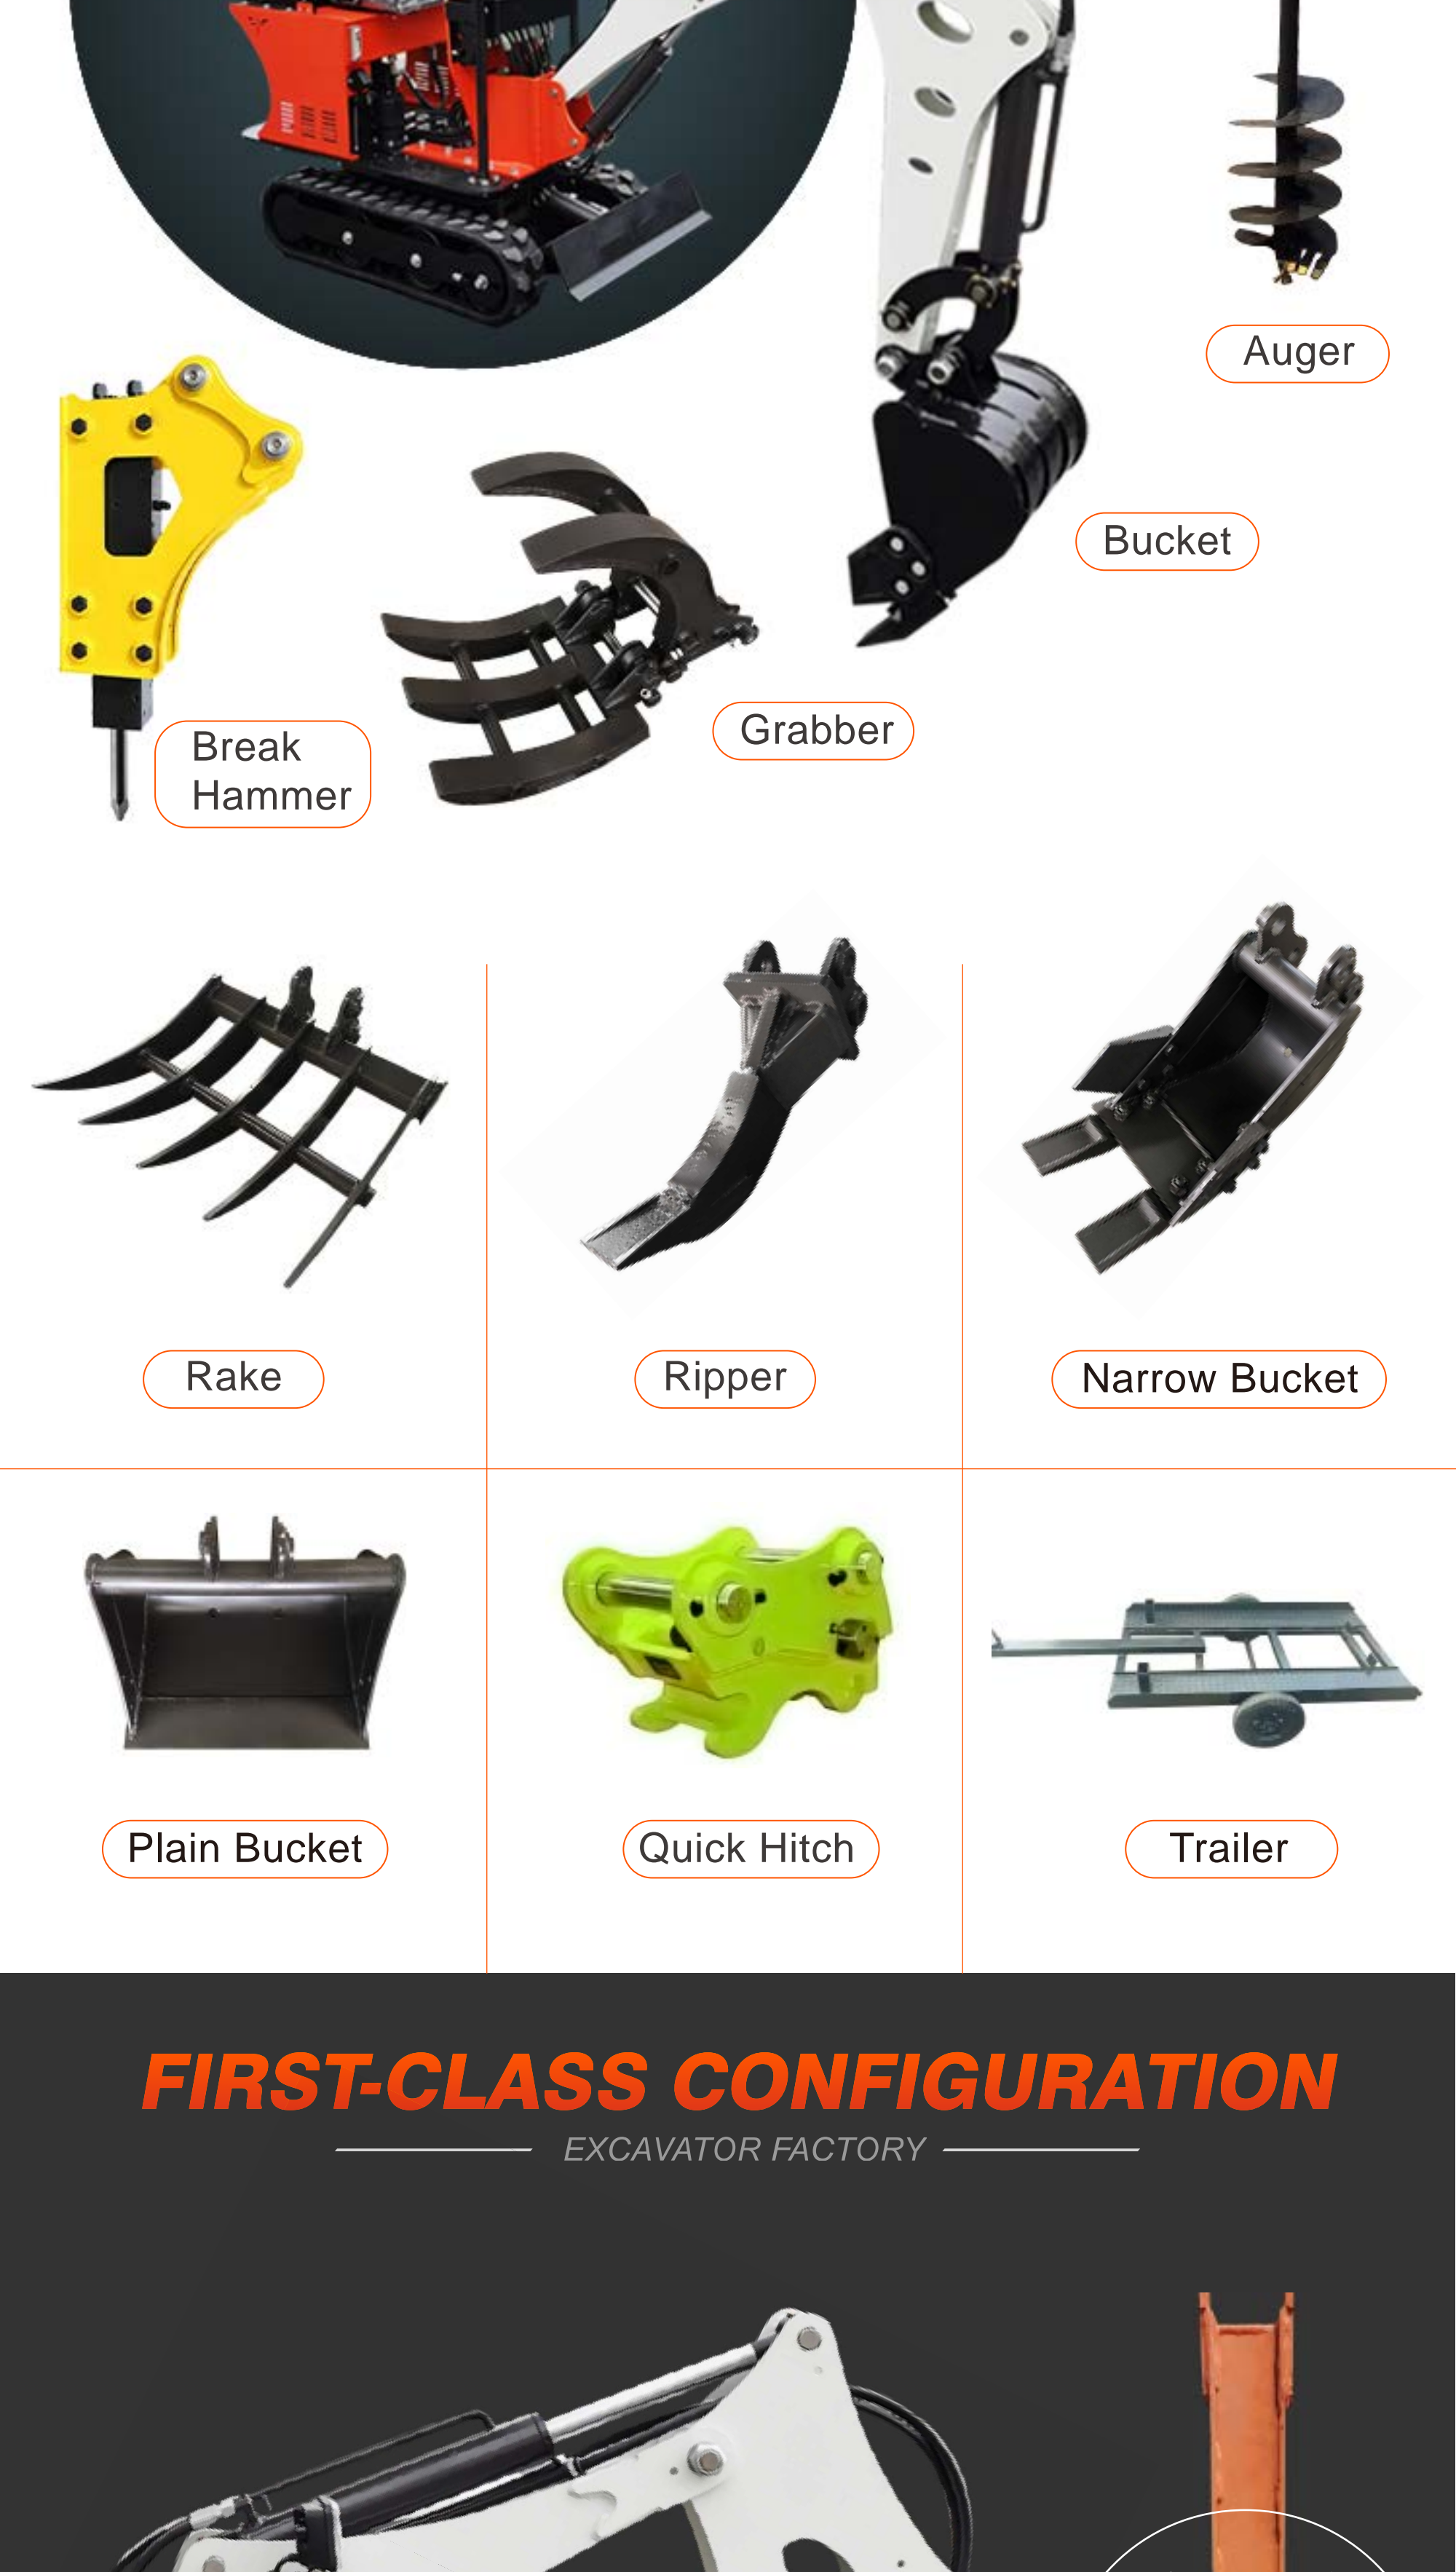

MODEL : PC08

Performance Parameter		Working Range	
Rated power	12HP	Max.digging distance	2450mm
Bucket Capacity	0.025 m³	Max.digging depth	1300mm
Engine Model	changchai 192	Max.digging height	2350mm
Operating Weight	800 kg	Max.dumping height	1600mm
Max. digging force	7.5KN	Min.Swing radius	1100mm
Pump form	Single gear pump	Max. Upgrade height of bulldozer blade	120mm
Set working pressure	14Mpa	Max. Digging depth of bulldozer blade	200mm
Swing speed	12 rpm	Dimensions	
Travel speed	2.2Km/h	Total width	720-780mm
Gradeability	30°	Total height	1300mm
Ground pressure	19Kpa	Total length	2430mm
		Min. ground clearance	80mm
		Track ground length	1140mm
		Track width	150mm

FIRST-CLASS CONFIGURATION

EXCAVATOR FACTORY

01 Unique big arm structure design not easy to break

Other factory arm easy broken design

02 The operation front pipeline is clear
The protective cover protects the pipeline from being destroyed

03 The boom cylinder adopts the well-known brand

The cylinder is designed integrated, which is more advanced than the welding technology.

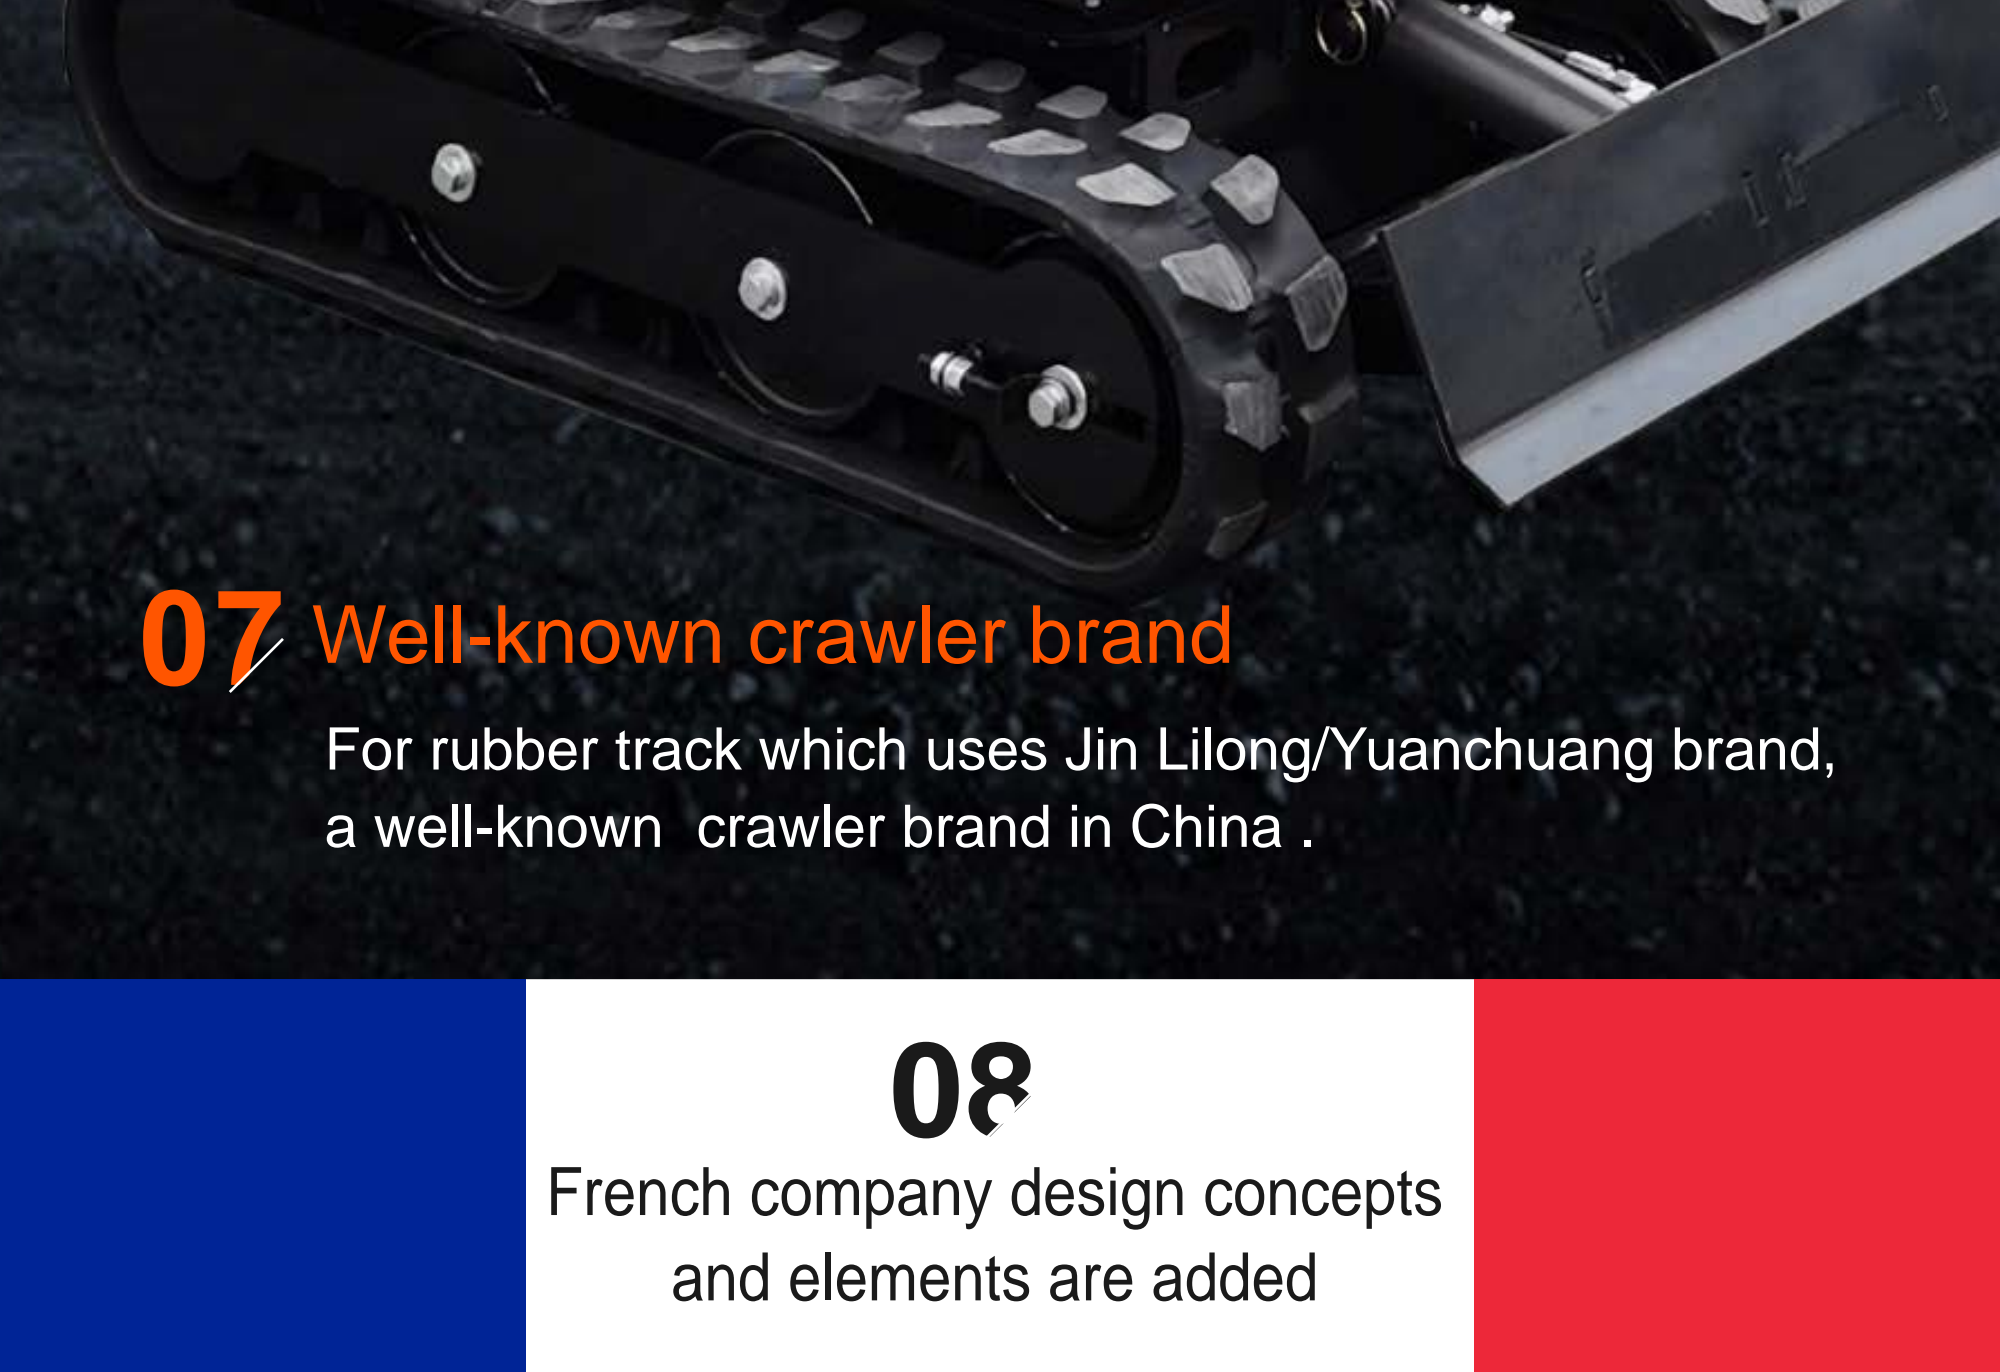

04 All structural parts are finely processed

Shot blasting, pickling, and baking finish process are adopted. The surface has high gloss and high paint adhesion.

05 The hydraulic pump is a pure cast iron pump

which is more wear-resistant than aluminous pump under the 3600 rpm engine high speed.

06 All hydraulic pipes adopt high-quality German imported pipes

07 Well-known crawler brand

For rubber track which uses Jin Lilong/Yuanchuang brand, a well-known crawler brand in China.

08 French company design concepts and elements are added

LEADING MANUFACTURING TECHNOLOGY

EXCAVATOR FACTORY

HIGHTOP has RGV assembly line and automatic welding robot, and has high static processing equipment to ensure the perfect bite and seamless welding of machine parts.
